

New York Stock Market

New York, January 14.—The bear campaign was continued to-day in the stock market, which was unsettled by a series of sharp drives. Quotations were lowered in all departments, and intervals the bear was forced downward abruptly with feverish fluctuations. Support was given from time to time, however, and the market was not permitted to become demoralized. There was considerable liquidation of speculative holdings and the extended activities of the bear faction were indicated by the largely increased demand for stocks in the loan crowd.

Politics have continued to the forefront once more as a potent influence in the stock market. For the last few weeks the street has been inclined to give heed to political considerations, although they were not recognized as a restraining influence. The attention given to the last two speeches of President-elect Wilson and the indications that the new administration had been of direct bearing on operations in stocks this week and have been utilized effectively by traders on the short side of the market.

Weakness of the foreign markets and the possibility of resumption of hostilities in the Balkans also tended to depress the home market. Still, the influence of the copper metal market, concerning the future of which considerable uncertainty is felt. There was another sharp decline in the metal market, offered at 3.

The copper stocks were again active and weak, but losses in this group were not more pronounced than in steel. Reading, Union Pacific, and other standard shares among which receded to more than 3 points. Steel receded to 6 1/2, the lowest since the start of last year. Among the less prominent shares there were heavier declines. American Tobacco broke 12 1/2 and several others from 4 to 10.

Bonds showed moderate heaviness, especially in convertible issues. Total sales, par value, \$2,391,000.

United States bonds were unchanged overall.

New York, January 14.—Money on call steady; highest, 3 percent; lowest, 2 1/2 percent; 2 1/2 percent; closing, 2 1/2 percent.

Time loans steady; sixty and ninety days, 4 percent; six months, 4 1/2 percent.

Prime mercantile paper, 4 1/2 to 5 1/2 percent. Sterling exchange, firm, with actual business in bankers' bills at 4 1/2 for sixty-day bills and at 4 3/4 for demand. Commercial bills, 4 1/2. Bar silver, 65 1/2. Mexican dollars, 45c. Government bonds steady, railroad bonds easy.
